

Telecommunications Project Manager, Lexington KY

Is working in a fast paced outside construction environment sound like a challenging position?
Do you have working knowledge of RUS standards and have aerial telecommunications experience?
Are you comfortable working closely with outside plant personnel, subcontractors and internal staff members on projects?
Are you a perfectionist, detail oriented and creative problem solver?
Are you a highly organized person who can meet a number of deadlines simultaneously with flawless execution?

If you answered yes to these questions we would like the chance to talk with you in more detail. Finley Engineering in Lexington, KY is looking for a Project Manager to manage an ARRA Stimulus Project. This project must be completed within 3 years and will lead to longer term employment for the individual who can successfully complete this project on time. This project involves deployment of 1,800 miles of fiber for 13,000 homes passed in a 4 county area in eastern Kentucky. The Project Manager will be responsible for building a team of 4 direct reports and up to 28 staff.

For over 50 years FEC has been a client-centered business where your ideas will be respected, where you can make a meaningful contribution and you have the opportunity to share in the benefits of exciting growth. Our associates are selected for their talents, and are provided with opportunities to do what they like to do every day.

A national company with local presence in nine locations throughout the country we have experienced record growth over the last 2 years. ZweigWhite, a nationally recognized management consulting and research firm, has published the Zweig Letter Hot Firm list recognizing Finley as one of the 200 fastest growing architecture, engineering and environmental consulting firms in the U.S. and Canada.

The ideal candidates for this position are required to have RUS experience, managed outside plant personnel deploying aerial telecommunications plant technology and at least 5 years of experience in a hands-on project management role managing projects in excess of \$1M. Candidates must have experience working in a fast paced, multi-location environment. Additionally, applicants must have demonstrated experience in Microsoft Office products, strong management skills, ability to work independently, be team oriented and possess excellent communication skills. If you meet these requirements apply online today by submitting a resume and salary history.

Great insurance benefits, competitive salaries, company vehicle and a 401(k) plan are all part of our total rewards plan. Profit sharing, ongoing career development through Finley Academy, performance bonuses and the opportunity to make an immediate impact on your career are the “perks” we provide. **RESUMES SUBMITTED WITHOUT SALARY HISTORY WILL NOT BE CONSIDERED.** Please submit your letter of application, resume and salary history to: Mike Bojanski, Director Human Resources Finley Engineering, m.bojanski@fecinc.com.
